Cari Colleghi,

Sono lieto di accogliere tutti voi qui a Milano per il Primo Congresso Nazionale della Associazione Italiana dei Chirurghi Epato-bilio-pancreatici (AICEP). Si tratta del primo evento della nuova Associazione che si sostituisce al Capitolo Italiano della International Hepato-Pancreato-Biliary Association (IHPBA), pur restando affiliata a rappresentanza del nostro paese alla Società internazionale di riferimento che è oggi, con la regionalizzazione della IHPBA, la European-African Hepato-Pancreato-Biliary Association (E-AHPBA). AICEP vuole significare inclusione, meritocrazia, innovazione e ricerca per costruire il riferimento nazionale della comunità HPB e rappresentarla nel mondo. Questo Primo Congresso Nazionale di AICEP è un'occasione importante per la comunità italiana HPB per scambiare idee, proporre collaborazioni ed avanzare progetti scientifici comuni. La comunità HPB italiana merita tutto questo perché è tra le più autorevoli al mondo per livello clinico, e scientifico delle Scuole chirurgiche in essa rappresentate che ora trovano in AICEP una dimora.

Dear colleagues,

I am pleased to welcome you all here in Milan for the First National Congress of the Italian Association of Hepatobilio-pancreatic Surgeons (AICEP). This is the first event of the new Association that replaces the Italian Chapter of the International Hepato-Pancreato-Biliary Association (IHPBA) although remaining affiliated in the representation of our country to the International Society of Reference which is today, with the regionalization of the IHPBA, the European-African Hepato-Pancreato-Biliary Association (E-AHPBA). AICEP should mean inclusion, meritocracy, innovation and research, and should be national reference and international representativeness. This First National Congress of AICEP is an important opportunity for the Italian HPB community to exchange ideas, propose collaborations and advance scientific projects. The Italian HPB community deserves this because it is one of the most authoritative in the world for the clinical and scientific level of the surgical schools represented in it that now find in AICEP a home.

Guido Torzilli, MD, PhD

EVENT HIGHLIGHTS

- **Chirurgia laparoscopica in HPB**
Laparoscopic HPB surgery
- **Chirurgia e oncologia in HPB**
Surgical oncology in HPB tumors
- **Chirurgia HPB e progressi dell'imaging**
HPB surgery and progresses in imaging techniques
- **Chirurgia ed epatologia**
Surgery and Hepatology
- **Novità in chirurgia del pancreas**
News in pancreas surgery
- **Chirurgia epatica e coloretale laparoscopica sincrona**
Simultaneous laparoscopic surgery of the liver and colon
- **Chirurgia e simulazione 3D preoperatoria**
Surgery and preoperative 3D simulation
- **Trapianto per le metastasi epatiche**
Transplantation for liver metastases
- **Trapianto di isole pancreatiche**
Transplantation of pancreatic islets
